This publication is available online at http://www.abet.org/about-abet/publications/annual-report-archive/.
For the last 83 years, ABET has built a solid foundation and a reputation based on performance and excellence. Over the last year, we strengthened our position as a world leader in the accreditation of technical programs by listening and working closely with our many stakeholders. We have embarked on ambitious projects that will assist ABET in securing its legacy and ensuring that it remains relevant and current. We invite you to read this Annual Report to learn more about ABET’s plans, and the steps that have been taken to ensure that ABET continues to be recognized worldwide as the gold standard for accreditation and innovation in technical education.

Global Outreach
The demands for ABET’s services continue to increase worldwide. Today, we have 3,466 accredited programs, at 698 institutions, in 28 countries. Over the last year, we accredited our first programs in China, Ecuador, Palestine, Russia, and Vietnam. With 420 accredited programs outside the U.S., we have solidified our reputation as the leading accreditor in technical education worldwide. In addition, our partnership with other accrediting bodies throughout the world continues to expand and prosper. We became a full signatory to the Dublin Accord — the multinational agreement for two-year technology programs which helps enhance the mobility of graduates while also improving the quality of global accreditation systems. ABET also continued to be actively involved in the Global Engineering Dean’s Council (GEDC) as well as the International Federation of Engineering Education Societies (IFEES).

Events
Attendance at our events reflects continuing interest in ABET’s processes and services. In 2014, more than 700 people attended the ABET Symposium in Pittsburgh, and over 20 percent came from countries outside the United States. There has been an increasing international presence in our workshops. Last year, more than 15 percent of attendees came from overseas, from countries as distant as Yemen and Papua New Guinea, with the largest contingent coming from Latin America and the Middle East. This level of participation exceeds our current geographic presence, indicating that faculty members and programs around the world do not see ABET accreditation as an end, but as a means to enhance the educational experience of their students.

CHEA Recognition
Our organization was granted re-recognition by the U.S.-based Council of Higher Education Accreditation (CHEA). This recognition affirms ABET’s status as the global accreditor of academic programs in applied science, computing, engineering, and engineering technology. It also signifies that ABET accreditation criteria and procedures meet widely recognized standards for advancing academic quality and facilitating program accountability. CHEA recognition indicates that ABET’s accreditation processes and procedures are considered to be fair and appropriate. By pursuing and attaining the recognition of a third-party organization, ABET has held itself accountable to the same standards of excellence that we expect from the programs ABET accredits.

Learning Center
We’ve begun construction of a state-of-the-art learning center at ABET’s global headquarters in Baltimore. This facility is envisioned to provide an environment that will both improve
the quality of the training experience for our evaluators, faculty, and industry partners, and provide an opportunity to immerse them in the ABET culture and brand. This initiative indicates ABET’s commitment for continued future improvement and success. Development of the learning center could have not been achieved without the support of our Board of Directors and the generosity of the ABET Foundation.

**New Website**

ABET has developed a new website to better serve its constituents. It is now mobile-friendly to ensure that users have the best experience across devices, including computers, tablets, and smartphones. It also offers expanded functionality of the accredited program search, the website’s most popular feature. Users can search based on program name as well as discipline. This allows users to more easily find niche programs that are accredited under our general criteria. Additional website changes are anticipated in the future, as ABET strives to continue its commitment to excellence in the accreditation of technical programs. You are encouraged to visit the new website.

As you can see, 2014 was a very dynamic year for ABET — our offerings, global reach and the numbers of programs that ABET accredits have expanded. This has been accomplished as a result the dedication and commitment of more than 2,000 ABET volunteer experts — program evaluators, team chairs, and commissioners — who unselfishly give of their time, talents, and expertise in support of ABET’s mission and goals. We are grateful for the support of these volunteers in moving ABET forward, as we continue to work together with programs, institutions, and companies worldwide. This year represents another confident step in the journey of excellence that ABET started back in 1932.

Best regards,

Monte L. Phillips, PhD, PE, F.NSPE
2013-14 ABET President

Michael K.J. Milligan, PhD, PE, CAE
ABET Executive Director and Chief Executive Officer
ABET AT A GLANCE

About ABET
We are a not-for-profit, non-governmental accrediting agency for programs in applied science, computing, engineering, and engineering technology. We are a federation comprised of 34 professional and technical member societies. ABET is recognized as an accreditor by the Council for Higher Education Accreditation. ABET accreditation provides assurance that a college or university program meets the quality standards of the profession for which that program prepares graduates.

We accredit programs, not institutions. We provide specialized accreditation for post-secondary programs within degree-granting institutions already recognized by national or regional institutional accreditation agencies or national education authorities worldwide.

Our accreditation is voluntary, and to date, more than 3,400 programs at nearly 700 colleges and universities in 28 countries have received ABET accreditation. Millions of graduates have received degrees from ABET-accredited programs since 1932.

ABET’s Vision
ABET will provide world leadership in assuring quality and in stimulating innovation in applied science, computing, engineering, and engineering technology education.

ABET’s Mission
ABET serves the public through the promotion and advancement of education in applied science, computing, engineering, and engineering technology. ABET will:
- Accredit educational programs.
- Promote quality and innovation in education.
- Consult and assist in the development and advancement of education worldwide in a financially self-sustaining manner.
- Communicate with our constituencies and the public regarding activities and accomplishments.
- Anticipate and prepare for the changing environment and the future needs of constituencies.
- Manage the operations and resources to be effective and fiscally responsible.

ABET’s Scope of Services
- Reviews programs — not institutions, departments, degrees, or individuals — to ensure they meet the standards necessary to produce graduates who are ready to enter their professions.
- Accredits programs at the associate’s, bachelor’s, and master’s levels.
- Offers workshops, conferences, and educational programming to institutions to help them understand the accreditation process and how to improve their programs’ quality.
**2014 ABET AWARDS**

**Linton E. Grinter Distinguished Service Award**

Recipients of the Linton E. Grinter Distinguished Service Award, ABET’s highest honor, are those ABET volunteers who follow in the namesake’s footsteps and who surpass even the highest service expectations of the organization. They are acknowledged for outstanding contributions to the technical disciplines through their work in ABET-related activities.

**Larry A. Kaye, Ph.D., P.E.**
Planning Advisor, ExxonMobil Research and Engineering Company (retired)

“For his distinguished record of achievements and accomplishments during his more than three decades of volunteer service and leadership at all levels of ABET. He led the Partnership to Advance Volunteer Excellence (PAVE) project that fundamentally revamped the recruitment, selection, training, and evaluation of program evaluators; and he played major roles in ABET’s Globalization Business Plan, the Governance Structure Task Force, and other key elements of strategic and financial planning. His exemplary commitment to continuous quality improvement has had an enduring effect on many aspects of ABET’s operations.”

**Fellow of ABET Awards**

The ABET Fellow Award is presented annually to recognize those individuals who have given sustained quality service to the ABET-related professions, in general, and to education within the ABET disciplines, in particular, through the activities of ABET.

**Douglas R. Bowman, Ph.D., P.E.**
Program Director for Logistics IT Solutions, Lockheed Martin (retired), and ABET Adjunct Accreditation Director, Engineering

“For notable leadership of the Engineering Accreditation Commission and exemplary chairmanship of the Accreditation Council during implementation of the harmonized criteria and early modifications to those criteria.”

(continued)
Cornell Diversity Programs in Engineering
Accepted by Cornell’s Associate Director of Diversity Programs in Engineering Jami Joyner Bowie
“In recognition of sustained success in deploying integrated programs for faculty, pre-college, undergraduate, and graduate students to increase the diversity and success of populations underrepresented in engineering.”

Claire L. Felbinger Award for Diversity
The Claire L. Felbinger Award for Diversity recognizes U.S.-based individuals, educational units, associations, and firms for extraordinary success in achieving diversity and inclusiveness or for facilitating diversity and inclusiveness in the technological segments of our society.

Purdue Women in Engineering Program
Presented in Absentia
“In recognition of their long-standing commitment to supporting women in their engineering pursuits and of their collaborations with alumnae and nonprofit partners to engage diverse pre-college student populations in STEM.”

Eugene M. DeLoatch, Ph.D.
“In recognition of a pioneer and champion of diversity whose lifetime of service and leadership in engineering education has created opportunities for generations of underrepresented and underserved students to earn degrees from ABET-accredited engineering, engineering technology, and STEM programs.”
Independent Auditors’ Report

The Board of Directors
ABET
Baltimore, Maryland

Report on the Financial Statements

We have audited the accompanying financial statements of ABET (a nonprofit organization), which comprise the statement of financial position as of September 30, 2014, and the related statements of activities and cash flows for the year then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors’ Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors’ judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to ABET’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABET’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
The Board of Directors
ABET

Report on the Financial Statements (Continued)

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ABET as of September 30, 2014, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited the 2013 financial statements of ABET, and our report dated January 29, 2014, expressed an unmodified opinion on those audited financial statements. In our opinion, the summarized comparative information presented herein as of and for the year ended September 30, 2013, is consistent, in all material respects, with the 2013 audited financial statements from which it has been derived.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the 2014 financial statements as a whole. The schedule of expenses without indirect expense allocation for the year ended September 30, 2014, and the comparative totals for the year ended September 30, 2013, on page 10 are presented for purposes of additional analysis and are not a required part of the 2014 financial statements. Such 2014 information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2014 financial statements. The 2014 information has been subjected to the auditing procedures applied in the audit of the 2014 financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the 2014 financial statements or to the 2014 financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2014 information is fairly stated in all material respects in relation to the 2014 financial statements as a whole. Also, in our opinion, the 2013 comparative totals are consistent, in all material respects, with the 2013 audited financial statements from which they have been derived.

* See accompanying Notes to Financial Statements (beginning on page 13).
The allowance for doubtful accounts is increased by charges to bad debts expense and decreased by charge offs of the accounts receivable balances. Accounts receivable are considered past due and charged off based on management’s determination that they are uncollectible.

### Property and Equipment and Intangible Assets

Property and equipment are stated at cost. Depreciation is provided over the estimated useful lives of the assets ranging from three to twelve years on a straight-line basis. Acquisitions of property and equipment in excess of $1,000 are capitalized. Amortization of equipment purchased through capital leases has been included in depreciation expense.

Construction in process represents capitalized costs associated with the newly acquired office building currently being renovated. When the building is placed in service depreciation will commence.

ABET is developing a database. Depreciation is provided over the estimated time the database will be utilized. Depreciation will commence when the database is fully operational.

### Revenue, Support, and Expense Recognition

The financial statements of ABET have been prepared on an accrual basis. Revenue from membership assessments is recognized over the period to which the assessments relate, and revenue from fees is recognized when the related services are performed. Accreditation visit revenue is recognized when ABET releases its final reports.

Unless specifically restricted by the donor or the grantor, all contributions and grants are considered to be available for unrestricted use. Unrestricted contributions received for ABET’s programs are recognized as support when received. (continued)
Income Taxes
ABET is a tax-exempt charitable organization under Section 501(c)(3) of the Internal Revenue Code.

ABET follows the Financial Accounting Standards Board Accounting Standards Codification (FASB ASC), which provides guidance on accounting for uncertainty in income taxes recognized in ABET’s financial statements. As of September 30, 2014, ABET had no unrecognized tax benefits related to uncertain tax positions in its tax return that would qualify for either recognition or disclosure in its financial statements.

ABET’s policy would be to recognize interest and penalties on tax positions related to its unrecognized tax benefits in income tax expense in the financial statements. For the year ended September 30, 2014, there were no matters that would have resulted in an accrual for interest and/or penalties.

ABET’s information returns that have been filed as of September 30, 2014, for the years ended September 30, 2013, 2012, and 2011, are subject to examination by federal, state, or local taxing authorities, generally for three years after they were filed.

3. Concentration of Credit Risk
ABET regularly maintains cash deposits at its bank in excess of federally insured limits of $250,000 per financial institution. At September 30, 2014, ABET’s bank deposits exceeded fully-insured limits by approximately $7,200,000.

4. Property and Equipment and Intangible Assets
The major components of property and equipment and intangible assets are as follows:

<table>
<thead>
<tr>
<th>Component</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Land</td>
<td>$ 360,000</td>
</tr>
<tr>
<td>Building</td>
<td>2,079,491</td>
</tr>
<tr>
<td>Information Management Systems</td>
<td>705,021</td>
</tr>
<tr>
<td>Information Management Systems – In Development</td>
<td>389,534</td>
</tr>
<tr>

<td>410,928</td>
</tr>
<tr>
<td>Furniture and Fixtures</td>
<td>206,909</td>
</tr>
<tr>
<td>Computer Software</td>
<td>247,878</td>
</tr>
<tr>
<td>Equipment under Capital Lease, before Accumulated Amortization of $11,650</td>
<td>16,311</td>
</tr>
<tr>
<td>Intangible Assets</td>
<td>14,915</td>
</tr>
</tbody>
</table>

Less Accumulated Depreciation and Amortization (1,210,235)

Net Property and Equipment $ 3,220,752

Depreciation and amortization expense was $179,807 for the year ended September 30, 2014.

5. Capital Lease Obligation
ABET is obligated under capital lease arrangements for office equipment.

The following is a summary of the minimum commitments of long-term leases over the remaining years:

For the Years Ending September 30

<table>
<thead>
<tr>
<th>Year</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>2015</td>
<td>$ 5,913</td>
</tr>
<tr>
<td>Less Amount Representing Interest</td>
<td>(430)</td>
</tr>
<tr>
<td>Preset Value of Minimum Lease Payments</td>
<td>$ 5,483</td>
</tr>
</tbody>
</table>

Interest expense for the year ended September 30, 2014, was $1,610.
6. Contributed Services
ABET records in-kind contributions for accreditation services rendered by the volunteer commissioners and program evaluators. Contributed services are recognized at fair value if the services received (a) create or enhance long-lived assets or (b) require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation. During the year ended September 30, 2014, ABET recorded $7,236,383 in in-kind contributions support and accreditation expense in the statement of activities, which represents approximately 66,000 hours of donated time.

7. Retirement Plan
ABET has a 403(b) retirement plan open to all employees. ABET contributes up to 8 percent of an employee’s compensation, subject to statutory limits. Employees are eligible for matching contributions after six months of employment, but can elect to defer their wages immediately. ABET’s contributions to the retirement plan amounted to $156,409 for the year ended September 30, 2014.

8. Rent
ABET leased its office space under a noncancelable operating lease that expired in September 2014. Rental expense for the year ended September 30, 2014, was $504,054.

9. Related Party Transactions
ABET Foundation, Inc., a not-for-profit corporation, is a related party because of common members of administrative management. As of September 30, 2014, ABET Foundation owed ABET $381 for reimbursable costs and these are included in accounts receivable. Total reimbursements from ABET Foundation were not material to ABET.

10. Functional Classification of Expenses
For ABET’s internal financial reporting, professional services and planning and operations expenses in excess of associated revenues are allocated to accreditation and governance expenses in proportion to their shares of total direct expenses for those programs. The following is the breakdown of expenses by functional classification based on internal allocations:

<table>
<thead>
<tr>
<th>Category</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Accreditation</td>
<td>$14,097,918</td>

</tbody>
</table>

The following is the breakdown of expenses required by US GAAP:

<table>
<thead>
<tr>
<th>Category</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Program Service Expenses</td>
<td></td>
</tr>
<tr>
<td>Accreditation</td>
<td>$11,051,973</td>
</tr>
<tr>
<td>Professional Services</td>
<td>1,589,603</td>
</tr>
<tr>
<td>Governance</td>
<td>789,895</td>
</tr>
<tr>
<td>Planning and Operations</td>
<td></td>
</tr>
<tr>
<td>Total Program Service Expenses</td>
<td>15,398,326</td>
</tr>
<tr>
<td>Supporting Service Expenses</td>
<td>925,579</td>
</tr>
<tr>
<td>Total Expenses</td>
<td>$16,323,905</td>
</tr>
</tbody>
</table>

11. Subsequent Events
ABET has evaluated subsequent events through January 23, 2015, the date on which the financial statements were available to be issued.
## ABET

### Schedule of Expenses without Indirect Expense Allocation

**For the Year Ended September 30, 2014**  
(With Comparative Totals for the Year Ended September 30, 2013)

STATISTICS: 2013-14 ACCREDITATION CYCLE

QUICK FACTS

- Total number of ABET-accredited programs — 3,466
- Total number of institutions with ABET-accredited programs — 698
- ABET-accredited programs in the United States — 3,046
- Institutions in the United States with ABET-accredited programs — 611
- ABET-accredited programs outside of the United States — 420
- Institutions outside of the United States with ABET-accredited programs — 87
- Total number of countries with ABET-accredited programs — 28

* Individual programs may embrace more than one curricular area, and thus may be counted more than once in this table.

** Data above may differ from that reported in previous versions of this publication as a result of retroactive accreditation. Retroactive accreditation occurs when a commission extends accreditation to encompass the academic year prior to the one in which a program’s on-site review was conducted. Retroactive accreditation may be applied to cover a new program’s early graduates, whose work is usually evaluated during the initial accreditation visit.

*** Statistics reported for a single commission may vary greatly from year to year, depending on criteria changes, number of programs visited, and other factors. If you have any questions, please contact the Accreditation Department at accreditation@abet.org.

* Data are self-reported and current as of October 1, 2014.
ACKNOWLEDGEMENTS

ABET is a federation of 34 professional and technical societies, and the Board of Directors is its governing body. The Board consists of officers, Directors from the ABET Member Societies, and Board elected individuals unaffiliated with the disciplines that ABET accredits, who are called Public Directors. The Board’s primary responsibilities are to set policies and procedures, establish the annual budget, and approve accreditation criteria.

Officers

President
Monte L. Phillips Ph.D., P.E.
University of North Dakota
(Retired)

Past President
Karan Watson, Ph.D., P.E.
Texas A&M University

President-Elect
K. Jamie Rogers, Ph.D., P.E.
The University of Texas at Arlington

Secretary
Michael R. Lightner, Ph.D.
University of Colorado at Boulder

Treasurer
Craig N. Musselman, P.E.
CMA Engineers, Inc.

Directors

Public Directors
Brian Lee Andrew, J.D.
C. William Bevins, FAIA

NSPS – National Society of Professional Surveyors
Steven D. Johnson, Ph.D.
Purdue University
The Academic Advisory Council (AAC) provides ABET leadership with access to academic viewpoints on issues of accreditation; applied science, computing, engineering, and engineering technology education; matters affecting the relevant professions; reactions to proposed ABET programs, procedures, and policies as they relate to the education sector of ABET constituencies; while also providing opportunities for enhancing communication between ABET and the academic community.

The AAC develops and implement mechanisms to stimulate the involvement of diverse elements of the academic community in the work of ABET through increased participation as Board members, members of the Accreditation Commissions, program evaluators, committee members, and attendees of ABET professional development events.

Chair
Steven M. Cramer, Ph.D., P.E.
University of Wisconsin – Madison

Council Members
Jane S. Bray
Millersville University

Patrick N. Breysse
Johns Hopkins Bloomberg School of Public Health

James Collofello
Arizona State University

K. Arthur Overholser
Vanderbilt University

Russell F. Pinizzotto
Wentworth Institute of Technology

Jeffrey L. Ray
Southern Polytechnic State University

John C. Williams
Alfred State College
The Industry Advisory Council (IAC) provides the ABET Board of Directors with valuable perspectives on ABET's accreditation programs and procedures. ABET has charged the IAC to:

- Provide industry and government viewpoints on accreditation,
- Review proposed changes in ABET programs and policies, and
- Stimulate industrial firms’ involvement in ABET’s work.

**Chair**

2013-14 TEAM CHAIRS

Team chairs have demonstrated technical competency and applied knowledge of accreditation criteria, policies, and procedures. They are experienced program evaluators who lead reviews and interact with the institutional representatives. We owe a debt of gratitude for their dedication and service to ABET and their professions.

The following individuals served as team chairs for at least one evaluation visit during the 2013-14 accreditation cycle.

Magdy Akladios
University of Houston – Clear Lake

Sue Ann B. Allen
University of Pennsylvania

Sohail Anwar
Pennsylvania State University, Altoona Campus

James H. Aylor
University of Virginia

Gordon "Don" L. Bailes
East Tennessee State University

Amitabha Bandyopadhyay, P.E.
State University of New York at Farmingdale

Oscar Barton
U.S. Naval Academy

Gail D. Baura
Keck Graduate Institute of Applied Life Sciences

Magdy Bayoumi
University of Louisiana at Lafayette

David B. Beasley Ph.D., P.E.
Arkansas State University

Donald E. Beasley
Clemson University

Paul J. Benkeser
Georgia Tech

Ronald J. Bennett, Ph.D.
University of St. Thomas

Bopaya Bidanda
University of Pittsburgh

Thomas R. Bieler
Michigan State University

David Binning

Purdue University
Program evaluators are the backbone of the ABET accreditation process. They visit institutions and review the programs seeking accreditation. To become a program evaluator, an individual must meet certain qualifications, such as possession of a degree appropriate to the field, demonstrated interest in improving education, and membership in at least one of the ABET Member Societies, to name but a few. Once accepted as a program evaluator, these individuals must undergo an extensive online and in-person training process before they are assigned to visit institutions worldwide.

We owe our program evaluators a debt of gratitude for their dedication and service to their professions.

The following individuals served as program evaluators for at least one evaluation visit during the 2013-14 accreditation cycle.
